Bio Spirit is not recommended for thinning Oil based paints.
Barrettine White Spirit or appropriate paint thinner as specified by the paint manufacturer should be used for this purpose.

DESCRIPTION

Bio Spirit is a high quality water based alternative to White Spirit. The formulation is a blend of biodegradable ingredients all of which are low VOC components. Bio Spirit is virtually odourless, non-toxic and is non-flammable.
Bio Spirit can be used to clean all water based and most oil based paints from brushes, rollers and paint tools etc. Bio Spirit contains conditioning agents which helps to leave brushes and rollers soft and supple. Bio Spirit may also be used to clean paint spills from surfaces such as worktops, laminate flooring, most textiles and glass surfaces etc.

DIRECTIONS FOR USE / HEALTH & SAFETY

Remove as much paint as possible from the paint brush/roller etc. Pour Bio Spirit into an appropriate sized container, dip the implement into the Bio Spirit and work in well. Remove from the container and using a cloth rub in the solution. Repeat the above as necessary using fresh Bio Spirit. Rinse in clean water and dry. Please note: Heavily coated paint tools may require a number of applications to obtain a satisfactory condition. Bio Spirit may not be suitable/compatible to clean all paint systems. In these cases you may find that Barrettine White Spirit or Cellulose thinners can be used instead.
Cleaning spills from Surfaces: Clean up as much of the paint as possible with a cloth or paper towel. Pour a generous quantity of Bio Spirit onto a cloth or rag and wipe surface until all paint has been removed. Rinse with clean water and allow to dry. If used on a food preparation surface, clean thoroughly with an appropriate surface cleaner.
Cleaning paint spills from Textiles, soft furnishings and carpets:
Carry out a small test patch in an inconspicuous area first to test for colour fastness. Apply Bio Spirit directly onto the affected area and rub until paint has been removed/cleaned away. Reapply as necessary.

HEALTH & SAFETY

Causes serious eye irritation • Keep out of reach of children
• Wash hands thoroughly after handling • Wear eye protection, face protection, protective clothing, protective gloves • IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing • If eye irritation persists: Get medical advice/attention • Dispose of contents/container in accordance with local/regional/national/international regulations
Contains tetrahydro-1,3,4,6-tetrakis(hydroxymethyl)imidazo[4,5-d] imidazole-2,5(1H,3H)-dione(5395-50-6), 1,2-benzisothiazol-3(2H)-one, 1,2-benzisothiazolin-3-one(2634-33-5).
May produce an allergic reaction.

WARNING

Contains: Less than 5% Non-ionic surfactant. Less than 5% EDTA and salts thereof. Less than 5% Anionic surfactant.
