

Mould & Mildew Cleaner

A ready to use fungicidal wash containing biocides for the control of organic growths and spores, with a cleaning action to remove light surface dirt. Can be used externally and internally to eliminate mould, mildew, algae and fungi from masonry, timber, plastic and similar substrates. Leaves the surface clean for further remedial treatment.

DIRECTIONS FOR USE

Wear appropriate personal protective equipment (PPE) such as chemical resistant gloves, overalls and eye/face protection to protect against splashes. If in doubt speak, to your PPE supplier and show them this label/product, or call us for further advice.

Remove as much surface debris and organic growths as possible by scraping and brushing. For maximum biocidal effectiveness use on dry substrates. Apply by brush, roller or spray at a rate of 5–10m² per litre depending upon the porosity of the substrate. Scrub treated areas with an appropriate brush and leave for up to 20 mins but do not allow to dry when used principally as a cleaner. If treating wood before re-coating, leave for 24 hours to maximise biocidal effect. Rinse / wipe down with clean water to remove residues and dead growth then allow to dry before continuing with any subsequent treatment. High pressure jet-washing not recommended. It may be necessary to repeat the process for heavily contaminated areas. Only use when the surface and ambient temperature is above 5 Celsius. Store at temperatures ideally above freezing and always replace the cap.

Knockout Mould & Mildew Cleaner is not a bleach so will not remove all staining from surfaces. Contains less than 5% cationic and non-ionic surfactants.

UFI: Q030-K07J-A00W-IN3E

HEALTH, SAFETY & ENVIRONMENTAL INFORMATION	
<p>Causes skin irritation. Causes serious eye irritation. Harmful to aquatic life with long lasting effects. If medical advice is needed, have product container or label at hand. Keep out of reach of children. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye protection, face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Dispose of contents, container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.</p>	 WARNING
STATUTORY CONDITIONS OF APPROVAL RELATING TO USE.	
<p>FOR USE ONLY AS A SURFACE BIOCIDES.</p> <p>Apply 1 litre of product per 5-10 square metres.</p> <p>Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval.</p> <p>HSE 9798</p>	

- *This material and its container must be disposed of in a safe way.
- *Do not contaminate foodstuffs, eating utensils or food contact surfaces.
- *Keep away from treated surfaces until dry.
- *Wash hands and exposed skin before meals and after use.
- *Keep in a safe place.

To avoid risks to man and the environment, comply with the instructions for use.
Contains Benzalkonium Chloride 1.95% (w/w).
