R5

SHAKE WELL

Instructions for use: Test for compatibility in an inconspicuous area first. Finish may vary depending on wood type and condition. Ensure wood is clean and smooth, filling open grain with wood / grain filler, followed by staining if necessary. For best results apply with 'rubber' made by wrapping cotton wool in a linen or cotton rag. Pour polish into rubber (with a spot of Linseed Oil to aid application if necessary), work into surface in circular or figure of eight motions. Apply several coats sanding lightly between coats if necessary. Finish coat is best applied with the polish thinned with Methylated Spirit. For best results apply in warm, dry atmosphere, allowing 24 hours for surface to harden.
After use - clean all spillages and application equipment with Methylated Spirits.

HEALTH, SAFETY & ENVIRONMENTAL INFORMATION

Contains: Methanol. Highly flammable liquid and vapour. May cause damage to organs. If medical advice is needed, have product container or label at hand. Keep out of reach of children.
