

CREOSOLVE® LIGHT BROWN

**SHAKE BEFORE USE &
AGITATE DURING USE**

APPLICATION

Barrettine CreoSolve® is a lower hazard alternative to traditional Creosote and some other Creosote replacement wood treatments. Similar physical/water repellence/application characteristics of traditional Creosote but contains no biocide. An oil based, bitumen and wax treatment for the protection of exterior timbers such as fence panels & fence posts etc. (Not suitable for decking or exterior wooden furniture). Apply by brush at a rate of 1 litre product per 6-8m² of surface or by dipping timber for 20 minutes.

EXTERIOR USE ONLY:

ABOVE GROUND APPLICATION

DIRECTIONS FOR USE

Wear appropriate personal protective equipment (PPE) such as chemical resistant gloves, overalls and eye/face protection to protect against splashes. If in doubt speak, to your PPE supplier and show them this label/product, or call us for further advice. Do not dilute. Ensure surfaces to be treated are clean, dry and free from surface coatings such as paint, varnish etc. Remove all deposits of mould, lichen or algae from timber surfaces using a stiff brush. Apply by brush or dipping only. Wash brushes and tools with white spirit. As the shade may vary from batch to batch, it is recommended that test patches are applied before general application.

Note: If using several containers recommend to mix before use to ensure colour uniformity.
