

PAINT BRUSH RESTORER

Wear appropriate personal protective equipment (PPE) such as chemical resistant gloves, overalls and eye/face protection to protect against splashes. If in doubt, speak to your PPE supplier and show them this label/product, or call us for further advice.

Directions: Soak brushes in the product by suspending the brush including part of the ferrule but not the handle in a glass or metal container (not plastic). Allow to soak for at least 4 hours but preferably overnight in a location away from where vapours could be inhaled; cover with cling film if necessary to reduce evaporation. Agitate the brush against the bottom / side of the container to loosen paint fragments. Remove from the container and dry in a cloth / paper flexing the bristles, this will help to loosen more paint as flakes; the product does not redissolve the paint. Re-immers as necessary or use a fine wire brush to comb the bristles to remove remaining adhered paint. Finally wash the brush in water and allow to drain. Use in a well ventilated area and protect surrounding areas from accidental splashes.

HEALTH, SAFETY & ENVIRONMENTAL INFORMATION

Contains: Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, < 2% aromatics.

DANGER

Flammable liquid and vapour. May be fatal if swallowed and enters airways. Causes serious eye irritation. May cause drowsiness or dizziness. If medical advice is needed, have product container or label at hand. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid breathing vapours, spray. Use only outdoors or in a well-ventilated area. IF SWALLOWED: Immediately call a POISON CENTER, a doctor. Do NOT induce vomiting. Store locked up. Dispose of contents and container to a hazardous or special waste collection point. Repeated exposure may cause skin dryness or cracking.

Contains less than 5% Anionic Surfactant.

Very High VOC content >50% VOCs
(Volatile Organic Compounds) Contribute to atmospheric pollution.
