WOODWORM KILLER

CONTAINS: Permethrin 2.5g/L
FIRST AID: If medical advice is needed, have product container or label at hand. **IF IN EYES:** rinse continuously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists : Get medical advice/attention. IF **ON SKIN:** wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Pyrethroids and Pyrethrins may cause paraesthesia (burning and prickling of the skin without irritation). If symptoms persist get medical advice. UK medical professionals should contact the National Poisons Information Service (www.npis.org) for further advice. **USE SPECIFIC INSTRUCTIONS & RISK MITIGATION MEASURES:** FOR USE ONLY AS A WOOD PRESERVATIVE. FOR PROFESSIONAL AND NON-PROFESSIONAL USE. FOR INDOOR USE ONLY. Do not touch or walk through spilt material. When dealing with spillage to not eat, drink or smoke. Avoid breathing vapour or mist. Provide adequate ventilation. Unprotected persons and animals should be excluded from the area being treated and should remain excluded until surfaces are dry, which may vary depending on climatic conditions. During application of the ready to use user should take care to avoid splashes on to clothing and skin. Any product on skin should be washed off. Persons and animals should be excluded from the area being treated and should remain excluded until surfaces are dry, which may vary depending on climatic conditions. Treated surfaces should not be touched until dry. Always read the label or leaflet before use and follow all of the instructions. Do not use on wood which may come into contact with food, feeding stuffs and livestock animals. Do not contaminate foodstuff, eating utensils or food contact surfaces. Avoid prolonged contact of pets, particularly cats, to treated surfaces. All bats are protected under the wildlife and countryside act of 1981. Before treating any structure used by bats consult Natural England, Scottish Natural Heritage or the Countryside Council for Wales. Inform the registration holder if treatment is ineffective. **ADDITIONAL INFORMATION FOR PROFESSIONAL USERS:** The COSHH (Control of Substances Hazardous to Health) Regulation 2002 (as amended) applies to the use of this product at work. Wear suitable protective chemical resistant gloves (rubber or nitrile) and eye/face protection during product handling phase. Wear suitable protective chemical resistant gloves (rubber or nitrile) when applying as a spray or injection treatment. A protective coverall (at least type 6, EN 13034) must be worn when spraying. Waste product or contaminated packaging should be disposed via a licensed waste disposal contractor. Empty container should be disposed of as normal industrial waste.

WOODWORM KILLER

AREAS OF USE: For use on internal timbers. Hazard class: Class 1 **PRE-APPLICATION:** Wood should be clean and free from wood dust and other contaminants. Always try on a small inconspicuous area (allowing to dry) to ensure compatibility with timber which is being treated. **APPLICATION RATE:** Apply by brush or low pressure spray. Eradicant insecticide. Apply at 300ml/m^2(1L per 3.3m^2). Preventative insecticide. Apply at 200ml/m^2(1L per 5m^2) Product should only require applying once every 5 years, if necessary, to timbers. **FOR PROFESSIONAL APPLICATION:** Curative injection applications of the diluted product should be applied at a rate of 150 kg/m^3 followed by a superficial treatment of 300 ml/m^2. This sequence application method should not be normal practice for curative applications, but only applied when required. **DRYING:** Product is touch dry in 1 hour depending on wood and ambient conditions. **FINISH:** Product does not have a finish and leaves effect of applying water or solvent. **OVER COATING:** Product should be suitable for over coating 24 hours after application depending on wood and ambient conditions. **CLEAN UP:** Remove most of product from brushes with tissue and wash brush with soap and clean water. **STORAGE:** Store in a cool, well-ventilated area. Keep container tightly closed. The floor of the storage room must be impermeable to prevent the escape of liquid. Must only be kept in original packaging. A shelf life of 24 months is supported. Protect from frost. Store upright, shake well. **DISPOSAL:** Empty container should be disposed of as normal household waste. Do not discharge the biocidal product into the sewage system or environment. Any waste should be disposed of safely in line with national waste management. **CONTAINS :** Permethrin 2.5g/L **ADDITIONAL INFORMATION FOR USE IN REPUBLIC OF IRELAND:** Use Biocides Safely and Sustainably. It is illegal to use this product for uses or in a manner other than that prescribed on the label. Poison Information : For information or to report a poisoning incident contact The National Poisons Information Centre, Beaumont Hospital, Dublin (01-8092166), retain label for reference. **FIRST AID:** If medical advice is needed, have product container or label at hand. IF IN EYES: rinse continuously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists : Get medical advice/attention. IF ON SKIN: wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Pyrethroids and Pyrethrins may cause paraesthesia (burning and prickling of the skin without irritation). If symptoms persist get medical advice. UK medical professionals should contact the National Poisons Information Service (www.npis.org) for further advice.
