OIL/SPIRIT FORMULATION

NOURISH & PROTECT PREMIER COLOURS

WOOD PROTECTIVE TREATMENT

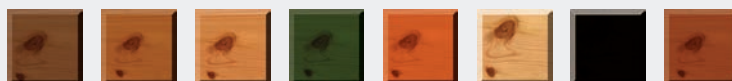

FOR ROUGH SAWN OR SMOOTH TIMBER
DEEP PENETRATING OIL / SPIRIT LOW ODOUR FORMULA

DESCRIPTION

An ideal wood treatment for outdoor timber structures such as Sheds, Fences, Trellis, Pergola and timber Gazebo's. A low build film product that absorbs into the wood surface to give excellent water repellency and beading. Oil/Spirit based for deeper penetration of substrate. Contains water repellent resins which help reduce decay, swelling, twisting of wood. Pigments have good UV fade resistance and will help protect wood from UV damage. Friendly to beneficial insects when dry.

AVAILABLE COLOURS

ORDER CODE

PTCL (Clear), PTDB (Dark Brown), PTLB (Light Brown)
PTRC (Red Cedar), PTHG (Holly Green), PTGB (Golden Brown), PTBL (Black), PTST (Summer Tan)

SIZES: 1 litre, 2.5 litre, 5 litre, 25 litre & 205 litre.

KEY FEATURES

- For use on most external pretreated timbers; (refer to tin/container).
- Contains film biocide. If used on unpreserved timber, use Barretline Universal Preserver as a primer prior to applying Wood Protective Treatment.
- Suitable for rough, sawn or smooth timber, but not suitable for garden furniture unless over sealed.
- Harmless to beneficial insects, plants and pets when dry.
- Oil/Spirit based for deeper penetration.
- Low odour ready to use formulation.
- Superb quality water repellent resins.
- UV fade resistant colour pigments.
- High level, long lasting protection.

APPLICATION

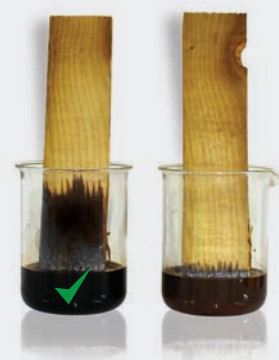

- Ensure wood to be treated is dry, free from dirt and repellent coatings such as paint or varnish. (remove and sand down as required).
- Recommend using a biocidal wash such as Barretline Knockout Mould and Mildew prior to treatment.
- Apply by brush, dip or roller.
- Coverage: 1 litre to 6m².
- Drying times: 24-48 hours under normal conditions.
- Best results – recommend 2-3 applications/coats.
- Clean equipment with Barretline White Spirit.
- Always read the label before use.

Regular treatment gives superb water repellency.

OIL BASED

WATER BASED

SHED & FENCE PROTECTION

Manufactured in the UK
SINCE 1879

HOW TO BRING NEW LIFE INTO A TIRED SHED AND FENCE, OR IF IT'S NEW GIVE IT THE PROTECTION IT NEEDS TO STAND THE TEST OF TIME.

RENOVATE & CLEAN

WOOD REVIVER
Sizes: 1 litre & 5 litre

MOULD & MILDEW CLEANER
Sizes: 4 litre

RENOVATE & CLEAN

After a few years sheds and fences can be looking a little weathered and grey. Barrettine Wood Reviver will turn back the clock reviving the wood, making it look like new in just a few easy steps. Once revived, a simple clean to eliminate any mould or mildew is advised before adding a protective coating to lock in that 'like new' appearance.

PROTECT OR PRESERVE

PROTECT OR PRESERVE

Once the shed or fence has been prepared there are two finish options, both offering fantastic protection but in slightly different ways. Use Barrettine Wood Protective Treatment if the wood is in good order and pre-treated as this will lock in your 'like new' appearance and protect the wood against further weathering. Alternatively if you are wanting to future proof the wood Barrettine Premier Wood Preserver offers long lasting protection from fungal decay and insect infestations. Both products are oil/spirit based for deeper penetration and have UV fade resistant colour pigments.

WOOD PROTECTIVE TREATMENT
Sizes: 1 litre, 2.5 litre & 5 litre

OIL/SPIRIT FORMULATION

NOURISH & PROTECT COLOURS

PREMIER WOOD PRESERVER

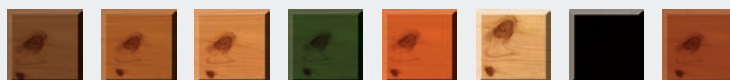

PROTECTS AGAINST
WOOD BORING INSECTS, WOOD ROTTING FUNGI & BLUE STAIN

DESCRIPTION

A high quality low odour Oil/Spirit based, deep penetrating preserver which is used for the protection against wood destroying fungi (wet rot), wood discolouring fungi and wood boring insects. Provides a semi-transparent matt / satin finish allowing the natural wood grain to be visible. No subsequent top coat product required unless for aesthetic purposes. For outdoor use and also for use on windows/frames, external doors/frames (internal & external sections). The clear product can also be used on structural timbers in unoccupied areas such as floor joists.

AVAILABLE COLOURS

ORDER
CODE

WOCL (Clear), WODB (Dark Brown), WOLB (Light Brown)
WORC (Red Cedar), WOHG (Holly Green), WOGB (Golden
Brown), WOBL (Black), WOST (Summer Tan)

SIZES: 1 litre, 5 litre, 25 litre & 205 litre.

KEY FEATURES

- Contains Permethrin, Tebuconazole & IPBC.
- Protects uncontaminated timber against wet rot, decay and wood boring insect attack.
- Mainly for external applications (out of ground) but some Internal. (refer to internal and external information on the back of the tin/container).
- Suitable for rough, sawn or smooth timber, does not require over sealing.
- Harmless to plants and pets when dry.
- Oil/spirit based for deeper penetration.
- Low odour, ready to use formulation with superb quality water repellent resins.
- High level, long lasting protection & preservation with UV fade resistant colour pigments.
- Approved under COPR/BPR.

APPLICATION

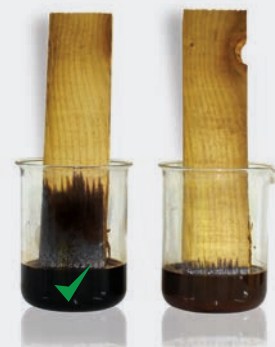

- Ensure wood to be treated is dry, free from dirt and repellent coatings such as paint or varnish. (remove and sand down as required).
- Recommend using a biocidal wash such as Barretline Knockout Mould and Mildew prior to treatment.
- Brush, dip or roller in suitable conditions. (When used outdoors make sure weather conditions are dry and still).
- Coverage: 1 litre to 5-6m².
- Drying times: 12 hours under normal conditions (20°C/65% rel. humidity).
- Best results – recommend 2-3 applications/coats.
- Clean equipment with Barretline White Spirit.

Regular treatment gives
superb water repellency.

OIL/SPIRIT FORMULATION

NOURISH & PROTECT CLEAR UNIVERSAL⁺

UNIVERSAL PRESERVER PRIMER

PROTECTS AGAINST
WOOD BORING INSECTS, WOOD ROTTING FUNGI & BLUE STAIN

DESCRIPTION

A high quality low odour colourless Oil/Spirit based, deep penetrating clear primer preserver which is used for the protection against wood destroying fungi (wet rot), wood discolouring fungi and wood boring insects. Provides a colourless finish for further painting, varnishing. For outdoor use and also for use on windows/frames and external doors/frames (internal & external sections). Can also be used on structural timbers on indoor unoccupied areas such as floor joists and roofs.

AVAILABLE COLOUR (CLEAR ONLY)

ORDER CODE

UPCL001 (1 Litre), UPCL005 (5 Litre)
UPCL025 (25 Litre)

SIZES: 1 litre, 5 litre, 25 litre

KEY FEATURES

- Contains Permethrin, Tebuconazole & IPBC
- Protects uncontaminated timber against wet rot, decay and wood boring insect attack.
- Suitable for use on all types of timber, rough, sawn or smooth. For use internally and externally (out of ground). Refer to internal and external definitions of use on the tin.
- Treated timbers can be polished, stained, varnished or painted when dry.
- Approved under COPR/BPR.
- Harmless to plants and pets when dry.
- Low odour ready to use formulation.
- Wax free primer for over coating.

APPLICATION

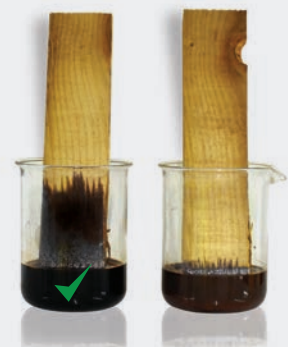

- Ensure wood to be treated is dry, free from dirt and repellent coatings such as paint or varnish (remove and sand down as required).
- Recommend using a biocidal wash such as Barrettine Knockout Mould and Mildew prior to treatment.
- Brush, dip, roller or spray in suitable conditions. (When used outdoors make sure weather conditions are dry and still).
- Coverage: 160 ml/m² or 1 litre to 6.25m².
- Drying times: 12 h under normal conditions (20°C/65%rel. humidity). Allow a minimum of 24 hours drying time before application of a top coat.
- Best results – recommend 2-3 applications/coats.
- Clean equipment with Barrettine White Spirit.
- External wood requires a water repellent finish after application.

Quality primer resin for excellent adhesion.

OIL BASED

WATER BASED

WOOD PRESERVERS & PROTECTIVE TREATMENTS

OIL/SPIRIT FORMULATION

PREMIER

DECKING OIL

ALL IN ONE DECKING TREATMENT

OILS, PROTECTS & STAINS WITH ADDED UV STABILISERS

DESCRIPTION

Specifically formulated for use on pressure treated and preservative impregnated timber offering superb protection to deck boards, deck tiles and balustrades. Also achieves a superior finish to summerhouses, sheds and fences. Non flaking and its water repellency helps prevent timber from splitting and cracking. UV fade resistant pigments.

AVAILABLE COLOURS

ORDER
CODE

DTCP2.5 (2.5L), DOCP005 (5L) - Amber Light Oak
 DTNO2.5 (2.5L), DONO005 (5L) - Natural Oak
 DTDO2.5 (2.5L), DODO005 (5L) - Dark Oak
 DTRO2.5 (2.5L), DORO005 (5L) - Rosewood
 DTCL2.5 (2.5L), DOCL005 (5L) - Clear

SIZES: 2.5 litre, 5 litre

KEY FEATURES

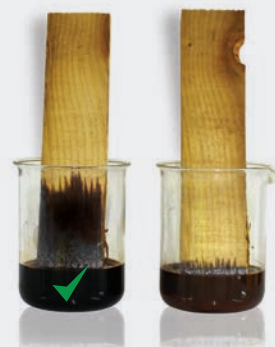

- Oils, Protects and Stains in one application.
- Provides a transparent / translucent finish colour to wood.
- Contains film biocide. If used on unpreserved timber, use Barrettine Universal Preserver as a primer prior to applying Premier Decking Oil.
- Resists flaking/peeling and contains added UV Stabilisers.
- A water repellent finish helping prevent timber splitting and cracking.
- Nourishes & Protects Decking Boards & Tiles.
- Superior finish for Sheds, Cabins & Fences.
- Available in five attractive colours and clear.
- Harmless to plants and pets when dry.

APPLICATION

- Apply an even coat to all surfaces to ensure optimum performance. For best results, apply to all sides of decking before construction, brushing in the direction of wood grain.
- One liberal coat applied with a wide bristle brush is usually sufficient but after 12-24 hours, the colour can be deepened with a second coat.
- All colours allow the grain texture to show leaving a low sheen finish.
- Leave for 24-48 hours or until dry before subjecting to heavy foot traffic.
- Recoat as and when desired, or when water is no longer repelled. Do not apply if the ambient temperature is below 5 Celsius, in damp conditions or rain is likely within 24 hours of application.
- Coverage: 1 litre treats up to 5-8m² (depending upon absorbency of wood).
- For best results use Barrettine Anti-slip Topcoat Decking Oil.

Contains added
UV Stabilisers.OIL

BASED

OIL/SPIRIT FORMULATION

PREMIER ANTI-SLIP DECKING OIL

IMPROVES GRIP ON DECKING & WOODEN STEPS
OIL, PROTECTS AND CONTAINS UV STABILISERS

DESCRIPTION

A premium quality top coat decking oil incorporating anti-slip technology. Improves grip on decking, handrails and wooden steps. A low sheen finish with UV stabilisers helps to slow wood turning grey. Resists flaking or cracking with excellent water beading. Oils and protects.

AVAILABLE COLOUR (CLEAR ONLY)

ORDER
CODE

DTAS2.5 (2.5 Litre), DTAS005 (5 Litre)

SIZES: 2.5 litre, 5 litre.

KEY FEATURES

- Improves grip on decking, handrails and wooden steps.
- Oils and protects with excellent water beading.
- Contains film biocide. If used on unpreserved timber, use Barrettine Universal Preserver as a primer prior to applying Premier Anti-Slip Decking Oil.
- A low sheen finish with UV stabilisers helps to slow the wood greying.
- DIY Week Garden Product of the year 2019.
- Formulated for use with Barrettine All-in-one Decking Oil.
- Rated Low Slip Risk according to BS 7976-2.

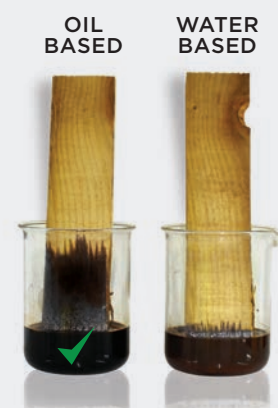

APPLICATION

- Apply an even coat to required surfaces to ensure optimum performance, finally brushing in the direction of wood grain.
- One liberal coat applied with a wide bristle brush is usually sufficient but after 12-24 hours, a second coat may be applied. Wait until dry before subjecting to foot traffic (approx. 24-72 hours).
- Do not apply if the ambient temperature is below 5°C, in damp conditions or rain is likely within 24 hours of application.
- Coverage: 1 litre treats up to 17m² (depending upon absorbency of wood).
- Anti-Slip Top Coat Decking Oil is unsuitable to use as a stand alone finish on bare/untreated decking boards and other timber surfaces.

Improves grip, with a low sheen finish.

DECKING CLEANING & PROTECTION

Manufactured in the UK
SINCE 1879

SIMPLE STEPS TO MAINTAIN DECKING FROM WEATHERING & MOULD WITH ADDITIONAL ANTI-SLIP TECHNOLOGY.

CLEAN & RENOVATE

SUPER CONCENTRATED DECKING CLEANER

Size: 500ml

WOOD REVIVER

Sizes: 1 litre & 5 litre

CLEAN & RENOVATE

When decking has been around a while it can start looking tired, these simple steps will give it a new lease of life. Firstly remove any previous coatings (if necessary) and clean the decking thoroughly using our Super Concentrated Decking Cleaner that treats up to 40m² from one 500ml bottle by just adding water. Once cleaned the decking maybe looking weathered and grey, simply apply Barrettine Wood Reviver, following the label instructions to bring the wood back to its natural colour before applying any protective coatings.

PROTECT & ANTI-SLIP TECHNOLOGY

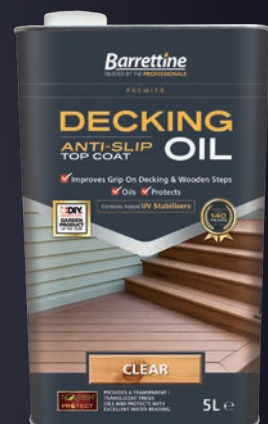

PROTECT & ANTI-SLIP TECHNOLOGY

Once the decking has been cleaned and renovated apply two coats of Premier Decking Oil. It has been specially formulated for use on pressure treated and preservative impregnated timber. It offers superb protection, is non-flaking and water repellent which will help prevent the timber from splitting and cracking. UV stabilisers are also added to all colour options to protect the timber from UV rays which will fade its colour. Finally, for best results add one/two coats of our award winning Anti-slip Decking Oil, rated 'Low Slip Risk' according to BS 7976-2 as a top coat for added grip.

PREMIER DECKING OIL

Sizes: 2.5 litre & 5 litre

LOG CABIN & DECKING TREATMENT

THE COMPLETE TREATMENT
OILS & PROTECTS LOG CABINS & DECKING

DESCRIPTION

Log Cabin and Complete Decking Treatment is specially formulated to oil and protect log cabins, decking boards, deck tiles and balustrades made from pretreated, pressure treated or preservative impregnated timber. Will also deliver a superior finish to sheds, huts and fencing.

AVAILABLE COLOUR (CLEAR ONLY)

ORDER
CODE

LCDT005 (Clear)

SIZE: 5 litre

KEY FEATURES

- Oils & Protects Log Cabins and Decking.
- Contains film biocide. If used on unpreserved timber, use Barretline Universal Preserver as a primer prior to applying Premier Clear Premier Log Cabin & Decking Treatment.
- Regular treatment provides superb water repellency.
- Resists flaking/peeling, whilst water repellence helps prevent timber splitting and cracking.
- Contains added UV Stabilisers.
- Harmless to beneficial insects and pets when dry.

APPLICATION

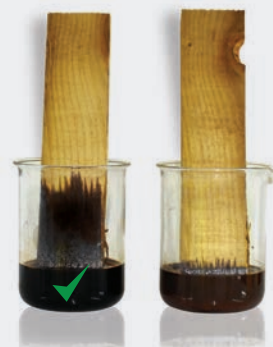

- Recommended for external surfaces only. Best results, pre-treat with a preserver.
- Ensure wood to be treated is dry, free from dirt and repellent coatings. Highly resinous timbers and some hardwoods may affect performance and final results.
- Do not apply if the ambient temperature is below 5 Celsius, in damp conditions or rain is likely within 24 hours of application.
- Apply an even coat to all external surfaces to ensure optimum performance. For best results, apply to all external sides of log cabins and decking before construction, brushing in the direction of the wood grain.
- One liberal coat applied with a wide bristle brush is usually sufficient but after 12-24 hours, a second coat may be applied. For decking boards leave for 24-48 hours or until dry before subjecting to heavy footfall traffic.
- Coverage: 1 litre treats up to 5-8m² (depending upon absorbency of wood).

Regular treatment gives superb water repellency.

OIL
BASED

WATER
BASED

OIL/SPIRIT FORMULATION

CLEAR LOW ODOUR FORMULATION

WOODWORM KILLER

FOR THE PREVENTION & ERADICATION
OF WOODBORING INSECTS, LARVAE & EGGS.

DESCRIPTION

A traditional deep penetrating low odour Oil/Spirit based woodworm killer which prevents & exterminates woodworm and woodboring insects from timber. Ideal for treating furniture, flooring, structural timbers etc. Avoid contact with plastics, roofing felts etc. Kills all common insects including Common Furniture Beetle, House Longhorn Beetle, Powder Post Beetle and wood boring Weevils. Also kills larvae and eggs when in direct contact.

AVAILABLE COLOUR (CLEAR ONLY)

ORDER
CODE

SPWW.25 (250ml)
SPWW.50 (500ml trigger spray)
SPWW001 (1 litre)
SPWW2.5 (2.5 litre)
SPWW005 (5 litre)

SIZES: 250ml, 500ml, 1 litre, 2.5 litre, 5 litre

KEY FEATURES

- Contains Permethrin.
- Protects uncontaminated timber against woodboring insect attack.
- Suitable for use on all types of timber, rough, sawn or smooth. (Internal & external)
- Treated timbers can be polished, stained, varnished or painted when dry.
- Approved under COPR/BPR.
- Harmless to plants and pets when dry.
- Deep penetrating low odour Oil/Spirit based, ready to use formulation.
- Kills all common insects including Common Furniture Beetle, House Longhorn Beetle, Powder Post Beetle and wood boring Weevils.
- Kills larvae and eggs when in direct contact.

APPLICATION

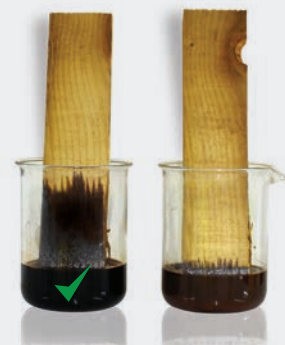

- Ensure wood to be treated is dry, free from dirt and repellent coatings such as paint or varnish (remove and sand down as required).
- Avoid contact with plastics, bitumen roofing felts and similar materials.
- Floor coverings: treated floors must be allowed to dry and ventilate for up to 3 weeks before relaying foam backed carpets or underlay.
- Remove absorbent materials and insulation from roof areas before application.
- Ensure all electrical wiring etc are in sound condition before treatment. Isolate the area of treatment from electrical supply by removing fuses before application.
- Brush, trigger spray or apply directly into flight holes where possible.
- Coverage:- Prevention: 200ml per m² or 1 litre to 5m².
Eradication: 300ml per m² or 1 litre to 3.3m².
- Drying times: 48-72 hours. We recommend 2 coats are applied for best results.

For use on all internal and external timbers.

CLEANS
AND
RESTORES

SUPER CONCENTRATED DECKING CLEANER

CLEANS & RENOVATES

DESCRIPTION

A fast acting, water-based decking cleaner suitable for all decking types including wood, composite and plastic. Ideal for removing dirt during decking restoration. Can also be used on outdoor furniture.

ORDER
CODE

SDECL50

SIZE: 500ml

KEY FEATURES

- Cleans & renovates decking, just add to water.
- Fast acting, super concentrated formula.
- Cleans up to 40m² of decking in just one bottle.
- Uses 70% less plastic compared to 5L ready to use cleaners.
- Can be used on all types of decking and outdoor furniture.
- DIY Week Garden Product of the Year Finalist.

APPLICATION

- Add the cleaner to 10L of water. Light cleaning, use 1/4 bottle, for intensive cleaning, 1/2 bottle.
- Always do a small test area before beginning any project to assess performance, compatibility and end result.
- Use a watering can for easier application, pouring solution directly onto the deck to be cleaned.
- Scrub the surface immediately using a very stiff brush then leave for 15-20 minutes. Agitate again before hosing off.
- Continue hosing until any foaming stops, to ensure the product is removed before further treatment.
- Coverage: Up to 40m² light clean or 20m² heavy soil.

Clean and renovates,
just add to water.

WOOD REVIVER

RESTORES GREY, UV/WEATHER DAMAGED WOOD

DESCRIPTION

Wood Reviver is a water-based formulation containing oxalic acid, a biodegradable organic acid found naturally in plants such as rhubarb and spinach. It will turn back the clock, restoring grey, UV-damaged wood to its original warm tones. Wood Reviver can also rescue wood from stains caused by tannin runs, watermarks, iron, rust and light dirt.

Ready to use formulation is low VOC and free from chlorine bleach. Its easy application gives results quickly, saving the labour, mess and dust of heavy sanding

**ORDER
CODE**

WORE001 (1 litre), WORE005 (5 litre)

SIZES: 1 litre, 5 litre

KEY FEATURES

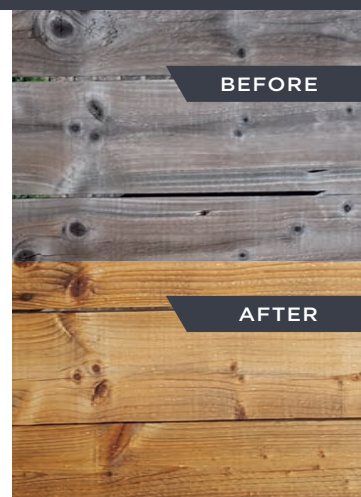

- Restores grey, UV/Weather damaged wood to its original tones.
- Suitable for exterior hardwood & softwoods and rough sawn or smooth timber.
- Contains Oxalic acid, thickened for vertical application
- Can also be applied to windows, sheds, fences, decking and outdoor wooden furniture.

APPLICATION

- Before applying the Wood Reviver, wet the wood with water.
- Apply Wood Reviver generously to all visible sides of wood/panels, up to a 2m² area at once .
- Leave the Wood Reviver to work for 15-30 min, ensuring it does not dry out.
- Agitate the surface and rinse thoroughly. Repeat the process as necessary.
- Light sanding may be required to restore a smooth finish.
- The results will vary depending on wood type, age and condition. A test area is recommended before wider application.
- Coverage: Up to 4m²/L, depending on wood porosity and finish.

Clean and renovates
UV damaged wood.

EXTERIOR WOODEN BUILDING RENOVATION

Manufactured in the UK
SINCE 1879

PROTECTING EXTERIOR WOODEN BUILDINGS FROM WEATHERING AND UV DAMAGE.

RENOVATE & CLEAN

WOOD REVIVER

Sizes: 1 litre & 5 litre

MOULD & MILDEW CLEANER

Sizes: 4 litre

RENOVATE & CLEAN

Wood structures and expensive cladding rapidly start to turn grey from weathering and UV damage, you may want to stop this happening. Barrettine Wood Reviver will turn back the clock and revive the wood, making it look like new in just a few easy steps. Once revived, a simple clean to eliminate any mould or mildew is advised before adding a protective coating to lock in that 'like new' appearance.

PRESERVE & UV/WEATHER PROTECTION

PRESERVE & UV/WEATHER PROTECTION

Once the exterior wooden building has been cleaned and prepared Barrettine Premier Universal Preserver should be applied as a base protective coating to protect the wood from fungal and insect attack. Once this has dried apply Armourflex Ultimate UV Protection Oil which contains a careful balance of UV absorbers and antioxidants, designed to capture the damaging UV rays from the sun and dissipate them safely as heat. In this way, the UV Oil is able to defend the wood against greying and impart a subtle, enhanced warmth to its appearance helping it retain the natural tone of the wood for a much longer period.

LONG LASTING WOOD PROTECTION
AGAINST WEATHERING & UV DAMAGE

5* STAR
PERFORMANCE

DESCRIPTION

Armourflex® Ultimate UV Protection Oil is a premium blend of natural oils, waxes, and resins, incorporating the latest UV stabilising technology to protect against weathering and UV damage that causes wood to swell, twist and grey. The transparent/clear oil and wax formula imparts excellent water repellence to both softwood and hardwood, giving a microporous finish which is resistant to flaking, peeling, cracking and blistering. Ideal for all exterior wood types including doors, windows and structural timbers. Contains film biocide. If used on unpreserved timber, use Barretine Universal Preserver as a primer prior to applying Armourflex Ultimate UV Protection Oil.

Manufactured in the UK

★★★★★
5* Star Performance

LONG LASTING PROTECTION AGAINST

Weathering & UV Damage

*SPECIALLY DESIGNED TO CAPTURE THE SUN'S
UV RAYS & DISSIPATE THEM SAFELY AS HEAT*

Armourflex® Ultimate UV Protection Oil offers a cost-effective solution to protecting exterior wood building facades and vertical surfaces. Armourflex® Ultimate UV Protection Oil contains a careful balance of UV absorbers and antioxidants, designed to capture the damaging UV rays from the sun and dissipate them safely away as heat. Armourflex® Ultimate UV Protection Oil prevents greying, swelling, shrinkage, splitting, and warping of wooden surfaces, extending the service life of the timber and reducing long term maintenance expense. The product also provides a water and dirt resistant barrier that prevents against surface mould and fungal attack, preventing discolouration of the surface.

- ✓ Slows Greying & Deterioration
- ✓ No Flaking or Peeling
- ✓ Excellent Water Beading
- ✓ Interior & Exterior Use

ARMOURFLEX® WOOD FLOOR LACQUER

NATURAL & ENRICHED FINISHES
FOR NATURAL & ENGINEERED WOOD FLOORING

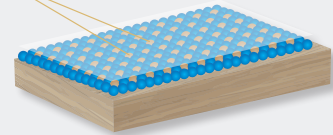

KEY FEATURES

- Professional water-based lacquer for superior protection.
- High performance cross-linking resins utilising the latest technology.
- Stain & Scratch resistant.
- Innovative ceramic particles for additional strength & protection.
- Can be used on all types of wood, leaving a premium finish.
- Perfect for heavy domestic, light commercial areas.
- Available in Natural and Enriched tones in matt, satin & gloss.

Innovative Ceramic Particles

The latest self cross linking resins coupled with innovative ceramic particles (shown in gold) provide additional strength and protection.

PREPARATION & APPLICATION

PREPARATION

- Sand back to bare wood to remove all previous treatments or resinous deposits, using appropriate floor sanding equipment.
- Repair any surface defects or open joints using a suitable wood filler, then sand back to a smooth surface. Vacuum thoroughly.
- If required, stain the floor using a water-based wood dye.

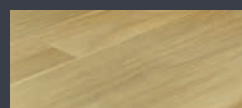

APPLICATION

- Shake/stir vigorously for at least 1 minute and allow any air bubbles to settle.
- The product must be fully mixed to ensure a uniform finish. Supplied ready to use, do not thin.
- Using a 4mm velour roller, work swiftly and smoothly, maintaining a wet edge to avoid overlap marks. Avoid over-working the lacquer.
- Allow 2 hours drying before applying a 2nd/3rd coat. If necessary, de-nib raised grain between coats by lightly sanding with 240 grit in the direction of the grain. Vacuum any sanding dust.
- The floor will take light foot traffic approximately 16 hours after the third and final application. For heavier use, (furniture, floor coverings or pets), allow 1 week for full curing.
- Coverage: 3 litres will cover approximately 12-18m² of bare wood with 3 coats, depending on the porosity and smoothness of the wood. (First coat approx. 8-12m²/L, subsequent coats approx. 15-20m²/L).

ARMOURFLEX® HARDWAX OIL

FOR WOODEN FLOORS & FURNITURE
TOUGH, DURABLE & WATER REPELLENT

**5* STAR
PERFORMANCE**

DESCRIPTION

A blend of natural oils and waxes, suitable for protecting and enhancing the durability of all interior wood surfaces including hardwood, softwood, parquet and veneer. Resistant to common stains such as wine, beer, fruit juice, carbonated soft drinks, tea, and coffee. Food/Toy safe when dry, certified by EN 1186:2002 & EN71:3.

AVAILABLE FINISHES

Matt, Satin & Gloss.

ORDER CODE

AHOM001 (1L Clear Matt), **AHOM2.5** (2.5L Clear Matt)
AHOS001 (1L Clear Satin), **AHOS2.5** (2.5L Clear Satin)
AHOG001 (1L Clear Gloss), **AHOG2.5** (2.5L Clear Gloss)

SIZE: 1 litre, 2.5 litre

KEY FEATURES

- Tough durable protection for wooden floors and furniture.
- Natural oils and waxes providing excellent water repellency.
- Stain, dirt and scratch resistant.
- Repairing damage and scratches is easy with a simple touch up.
- Suitable for interior wood surfaces including hardwood, softwood, parquet and veneer.
- Available in clear: matt, satin and gloss finishes.
- Manufactured in the UK.

APPLICATION

Test the colour and compatibility with any wood fillers or dyes on a scrap piece of wood before use.

- Ensure good ventilation is maintained during application and throughout the drying process.
- Ready to use, do not thin. Stir thoroughly before use.
- Apply in thin coats using a short pile roller, good quality brush or lint free cloth. Over-application can reduce the finish quality and prolong drying time.
- On previously treated timber 1 coat is normally sufficient, maximum of 2 coats may be required if applying to fresh or previously untreated timber.
- 6-8 hours drying time under average climatic conditions (23°C, 50% humidity). Preferably allow to dry overnight.
- Suitable for light foot traffic approximately 16 hours after final coat.
- Covers up to 28m²/L per coat depending on substrate absorbency.
- Read entire label and carry out a test patch before starting any project.

Sizes: 1 litre & 5 litre

MOULD & MILDEW CLEANER

Sizes: 4 litre

RENOVATE & CLEAN

When garden furniture has been around a while it can start looking tired, these simple steps will give it a new lease of life. Barrettine Wood Reviver will turn back the clock and revive the wood, making it look like new in just a few easy steps. Once this has been brought back to life a simple clean to eliminate any mould or mildew is advised before adding an attractive / protective coating to bring out the beautiful wood grain and colour.

OIL, NOURISH & PROTECT

OIL, NOURISH & PROTECT

Once the wooden garden furniture has been cleaned and prepared Barrettine Danish Oil or Teak Oil are two great options to choose from as a final finish. The difference between the two? Barrettine Danish Oil is an interior/ exterior oil with a tough, attractive low sheen finish and additional layers will build the coating. Barrettine Teak Oil will retain the natural beauty of the wood but without an additional sheen to the finish. Both Danish & Teak Oil will help prevent weathering and reduce the risk of the surface splitting.

AWARD WINNING PRODUCT

DECORATE

PAINT PANTHER® PAINT & VARNISH REMOVER

HIGHLY EFFECTIVE & INCREDIBLY FAST
DIY DECORATING PRODUCT OF THE YEAR 2011

DESCRIPTION

A highly effective incredibly fast paint & varnish stripper to remove many types of coatings. Gel consistency ideal for vertical and other less accessible areas to be treated.

Methylene chloride free. Paint Panther will also strip metalised paint.

Gold winner of the DIY Decorating Product of the year 2011.

ORDER CODE

STPP.25 (250ml)
STPP.50 (500ml)
STPP001 (1 litre)
STPP2.5 (2.5 litre)
STPP004 (4 litre)

SIZES: 250ml, 500ml, 1 litre, 2.5 litre, 4 litre.

KEY FEATURES

- Fast acting and easy to apply.
- Powerful performance.
- Removes up to 7 layers.
- Non drip gel formula.
- Will also remove metallised paints.
- For use on wood, masonry and aluminium (not suitable for on fibreglass)

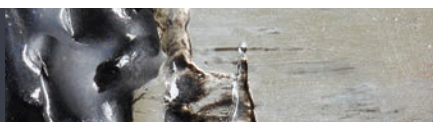

APPLICATION

- Protect surrounding areas with suitable sheeting to prevent spill over.
- Light scoring of the coating surface may enhance performance on some coatings.
- Apply by brush, add a liberal quantity of product by dabbing onto the coating surface and allow to blister (10-15 minutes), then rub additional product into the formed blisters.
- Allow product to penetrate for additional 15-30 minutes before trying to remove a small area using a shavehook or stripping knife. Use a stiff bristled brush for awkward areas. Only apply to an area less than 1/2 metre square at a time to prevent product drying out.
- Wipe the surface clean with Barrettine White Spirit or Methylated spirits. Water can be used but it may raise the grain on certain wood substrates. Allow to dry. Rub with fine sandpaper or a stainless steel pad before redecorating.

Also removes
metalised paints.

PEELAWAY® 1 NEUTRALISER

ORDER
CODE

PEAN001 (1 litre)

PEELAWAY® 1 SPARE BLANKETS

ORDER
CODE

PEAIB10 (10 Pack)

KEY FEATURES

- Peelaway 1 removes up to 32 layers of Paint or Varnish (not suitable for use on lead substrates).
- Peelaway 1 can be used on Wood, Brick, Stone, Concrete, Plaster (decorative), Plastic, Steel, Iron & Marble.
- Peelaway 1 is perfect for removing toxic lead-based paints.
- One application removes multiple coats of paints, varnishes and oils at once.
- Environmentally safer compared to shot blasting, abrasion and heat guns.

APPLICATION

- A test patch should be completed before undertaking any paint removal project.
- Apply Peelaway evenly by spatula, trowel or brush, working the poultice into crevices and mouldings (can also be sprayed). Older coatings and numerous layers will require a thicker application.
- Place the Peelaway laminated blanket (printed side out) onto the poultice, excluding air as much as possible.
- Masking down edges will decrease the chance of the poultice drying out. Allow a dwell time of 2 to 48 hours, checking the test patch at intervals.
- The poultice should be removed after the shortest effective dwell time. Thicker/numerous paint layers and low temperatures will require longer.
- External use may be affected by extremes of weather conditions (rain or direct sunshine) and additional monitoring or protection may be required.
- Only apply to a manageable area size that can be stripped within the timescale indicated by the Test Patch.
- Peelaway 1 is alkaline based and will require neutralising the substrate after removal.

Perfect for multiple layer paint removal on ornate substrates.

AWARD WINNING PRODUCT

PEELAWAY® 7 PAINT & VARNISH REMOVER

THE ORIGINAL POULTICE PAINT REMOVAL SYSTEM

ALWAYS CARRY OUT A TEST PATCH FIRST.
TEST KITS ARE AVAILABLE ON PAGE 45.

DESCRIPTION

Peelaway® 7 is formulated to remove up to 20 coats of modern paints from woodwork, bricks, masonry, plaster, fibre glass and metal (includes automobile and aircraft paints). A water-based formulation that works for up to 48 hours. Peelaway® 7 does not require neutralising.

ORDER CODE

PEA7.75 (750g), PEA7004 (4Kg), PEA7010 (10Kg)

SIZES: 750g, 4Kg, 10Kg

PEELAWAY® 7 SPARE BLANKETS

ORDER CODE

PEAB010 (10 Pack)

KEY FEATURES

- Peelaway 7 removes up to 20 layers of Paint or Varnish.
- Peelaway 7 can be used on Wood, Brick, Stone, Concrete, Metal, Lead, Plaster, Masonry & Fiberglass.
- One application removes multiple coats of paints, varnishes and oils at once.
- Environmentally safer compared to shot blasting, abrasion and heat guns.

APPLICATION

- A test patch should be completed before undertaking any paint removal project.
- Apply Peelaway evenly by spatula, trowel or brush, working the poultice into crevices and mouldings (can also be sprayed). Older coatings and numerous layers will require a thicker application.
- Place the Peelaway laminated blanket (printed side out) onto the poultice, excluding air as much as possible.
- Masking down edges will decrease the chance of the poultice drying out. Allow a dwell time of 2 to 48 hours, checking the test patch at intervals.
- The poultice should be removed after the shortest effective dwell time. Thicker/numerous paint layers and low temperatures will require longer.
- External use may be affected by extremes of weather conditions (rain or direct sunshine) and additional monitoring or protection may be required.
- Only apply to a manageable area size that can be stripped within the timescale indicated by the Test Patch.
- Peelaway 7 does not require neutralising.

Perfect for multiple layer paint removal on ornate substrates.

ANTI-FOUL REMOVAL

PEELAWAY® MARINE

REMOVES MULTIPLE COATS OF ANTI-FOULING
IN ONE APPLICATION

5* STAR
PERFORMANCE

ALWAYS CARRY OUT A TEST PATCH FIRST.

DESCRIPTION

Peelaway® Marine is specially formulated to effectively remove multiple layers of anti-foul coatings from GRP, wood, metal and concrete with one application saving time by reducing the need for repeated scraping. Its patented water based poultice system means the product remains active and works without rapidly drying out. The special poultice blanket supplied enables stripped anti-foul paint to be collected easily and so reduces boatyard/dockside contamination risk. Note: Always carry out a test patch first.

STONE, GRANITE & SLATE CLEANING

IRON STAIN AWAY

NEW

DESCRIPTION

Acid based cleaner for the removal of rust outbreaks within ferrous hard stones. Also removes cement and mortar stains. Iron Stain Away contains special rust preventing ingredients designed for long term effect. Cement and salt residues are also removed. Suitable for use on acid resistant natural stones including granites and slates.

PEST CONTROL

Insect & Rodent Control

Manufactured in the UK
SINCE 1879

INSECT & RODENT CONTROL

RAPID KNOCKDOWN

BUG BLASTER®

100% INSECTICIDE-FREE

DESCRIPTION

Bug Blaster®, the trusted, reliable and effective insecticide-free spray has now been reformulated to contain a water soluble polymer that acts as a physical mode of action. The insect is coated with a polymer when Bug Blaster® is applied to the insect, the liquid polymer coating immobilises the insect and as a secondary consequence of this film coating, the insect dies. There is no residual action of this formulation as Bug Blaster® contains no insecticide and the knockdown is rapid. Recommended to be used against small nuisance insects appearing around the home such as flies, ants, bed bugs, fleas.

RODENT EXCLUSION

ROMAX®

ROMAX® RODENT SEAL

UNIQUE WIRE WOOL SEALANT FOR RODENT EXCLUSION

DESCRIPTION

Romax® Rodent Seal uses a top quality Industrial sealant in a patented mix of stainless steel fibres. The benefits of such 'wire wool' plus proofing materials has long been known but for the first time, they've been combined to offer a professional and time saving solution to rodent exclusion. In addition, the product has been commercially tested and is 'metal detectable', making it a good choice for sealing around plant and machinery in the food industry, whether this be for rodents, insects or just housekeeping.
