

CORROSIVE PRODUCTS

Barrettine
TRUSTED BY THE PROFESSIONALS

Important Product Stewardship Information

Please read before distribution / issuing to customers / end users

The following products are very hazardous materials and need to be handled with the utmost care and attention by stockists, distributors, merchants and particularly end users.

We understand the Government are currently reviewing **Point of Sale Controls** regarding corrosive products but whilst there are still no official guidelines, we feel it is appropriate to recommend to distributors / merchants that the products are sold on as follows:

1) Heavy Acid based Drain Unblockers / Cleaners

Sulfuric (Sulphuric) Heavy Acid Based Toilet & Drain Unblockers. As per label instructions, must **NOT** be used in shower trays, baths, basins, urinals or kitchen sinks. **For use only in Toilets and Outdoor drains.**

SULFURIC ACID Sold for Trade & Professional use only.

Sulfuric Acid at 15% strength or more will be a **“Regulated Substance”** as of **1st July 2018**. Meaning it can only be sold to members of the public with an EPP licence (Explosive precursor & poison licence) and to Trade/Professional users. Our advice is to only sell to customers that hold a Trade account. (Trade/professional users do not need an EPP license)

Knockout® Toilet & Drain Unblocker: 500ml & 1Ltr. (95-97% sulphuric acid).

Sold for Trade & Professional use only and to members of the public with an EPP licence (Explosive precursor & poison licence). As per label instructions, Knockout Professional Toilet & Drain must NOT be used in shower trays, baths, basins, urinals or kitchen sinks. For use only in toilets and outdoor drains.

Please remind your customers / end users of the importance of using the correct personal protective equipment, including eye / face protection, appropriate gloves and coveralls as stated on the label. Remind them to read all instructions before use and make sure the product is kept / stored out of the reach of children.

Do not sell these products to persons under the age of 18.

Only sell to Customers who have a Trade Account.

Never mix chemicals. Do not use an Acid on top of an Alkaline such as Sodium hydroxide/Caustic or vice versa!

Never mix chemicals. Do not use an Alkaline such as Sodium hydroxide/Caustic on top of an Acid or vice versa!

Do not sell these products to persons under the age of 18.

Whilst the above information appears on the product label, we would recommend that this information is reinforced to all customers / end users.

**** Do not sell any of these products to persons under the age of 18 ****

IN STORE DISPLAY FOR HIGHLY CORROSIVE PRODUCTS

We would further recommend that dummy/empty containers are placed on the shelf with an instruction to the customer to take the bottle to the retail/trade counter. This will give the Trade/Retail outlet the opportunity to vet the Customer and also make sure they are choosing the correct product and give advice on product usage and the correct Personal Protective Equipment (PPE) to wear/use. Barrettine can provide labelled dummy/empty containers on request.

Please contact us if you require further guidance / information.
