

# ArmourFlex®

• Hard-wearing • Flexible • Protection

**Manufactured in the UK**

*"Armourflex® provides a truly natural finish invoking quality."*

## The next generation of floor lacquer systems

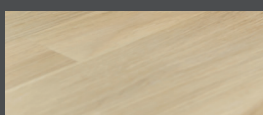

- ✓ High Performance Cross-Linking Resins
- ✓ Natural & Enriched Finishes
- ✓ Stain & Scratch Resistant
- ✓ Innovative Ceramic Particles

Armourflex® Wood Floor Lacquer is a professional high performance coating utilising the latest technology. Armourflex® reacts with oxygen to create internal cross-links for a strong coating without the need for mixing two pack systems. To further boost the technology ceramic particles have been added to it's formula providing greater strength & protection. Available in a natural tone with minimal wood colour change or an enriched tone which emphasises the grain of the wood. Armourflex® Wood Floor Lacquer can be used on all types of wood, leaving a premium finish. It is ideal for heavy domestic and light commercial applications.

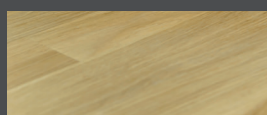

Also launching within the Armourflex® range we offer an effective yet gentle hard surface cleaner. Ideal for wooden floors but equally effective on tiles & non porous stone.
