ArmourFlex®

• Hard-wearing • Flexible • Protection

Manufactured in the UK

Armourflex® UV Protection Oil offers a cost-effective solution to protecting exterior wood building facades and vertical surfaces.

Armourflex® UV Protection Oil contains a careful balance of UV absorbers and antioxidants, designed to capture the damaging UV rays from the sun and dissipate them safely away as heat.

Armourflex® UV Protection Oil prevents greying, swelling, shrinkage, splitting, and warping of wooden surfaces, extending the service life of the timber and reducing long term maintenance expense. The product also provides a water and dirt resistant barrier that prevents against surface mould and fungal attack, preventing discolouration of the surface.
